

Ensuring that scientific integrity, technical expertise, and independent analysis are the foundations for every project we complete.

HydroSolutions Inc is a Montana-incorporated environmental consulting and engineering firm founded in 1999, which specializes in hydrology, geology, environmental engineering, groundwater, water quality, environmental assessment, reclamation, and cleanup.

HydroSolutions has offices in Helena and Billings, Montana. Our projects and clients are located throughout the West. We have a well-balanced and experienced staff of hydrogeologists, hydrologists, engineers, geologists, fisheries biologists, NEPA/MEPA specialists, GIS and database specialists, and field technicians. We emphasize quality, integrity, safety, and responsiveness.
